

New Division for **SWA**

SWA is delighted to announce the launch of its new HSE Division. "So many customers ask us about Health and Safety issues in their workplace and we are now delighted to be able to respond to this demand and in Robin we have one of the countries leading experts in this field" says Steve Walker MD of SWA. As an introductory offer we are delighted to offer a **FREE** HSE audit for the first 20 of businesses who request a special Health and safety audit.

Health and Safety at work is fast becoming one of the most important areas of director responsibility. Our **FREE** audit is open to the first 20 companies that request it. Each audit will consist of a site visit by Robin Clayton our Health and Safety expert who will carry out a site audit and provide a short report back of key recommendations (if any) at no cost.

SWA has launched 3 Health and safety packages Gold, Silver and Bronze packages reflecting the type and style of support a company might benefit from. Each package has been carefully designed to cover every aspect of Health and Safety, from the complete outsourced supplier, our Gold package; through to lesser packages where more limited support is required.

SWA are currently successfully delivering Health and Safety advice for The Football Association, who are benefitting from the SWA Gold Service HSE package. The FA operates in every county across England and Wales and chose **SWA** as its outsourced partner to provide this valuable service to its county based operations.

If you have not reviewed your Health and Safety procedures and policies recently or would like to look at how we support our clients' needs such as the FA, then please get in touch info@stevewalkerassociates.com or call **0845 459 0136** so we can arrange an appointment for you.

"Keeping everyone in a healthy working environment is vitally important. I am looking forward to ensuring that the FA across the country gets the support it needs, ensuring its working environment is as safe as possible."

Robin Clayton **SWA** Health and Safety Division manager.
